DENMARR & THE DUCHIES .- The war has now commenced in earnest, on the 25th ult., the two armies met, and after some skirmishes a regular engagement commenced, in which the Dane's were victorious. The buttle commenced at the dawn of day, and lasted some hours. The Danish force consisted of about 25,000 men, and the insurrectionary of about 20,-600 men. The killed, wounded and missing is stated to amount to 7,000. The of your paper! greatest number will fall on the Danes.

#### North Carolina Election.

BALTIMORE, Aug. 11. A dispatch received here says Reid is elected Governor by 600 majority, and that the democrats in the Legislature have 14 majority on joint ballot.

A young lady, with a mind intent on shopping, entered a store on a certain occasion, and addressing a fresh-looking, rosy cheeked youth, desired to know if he had

"Certainly, Miss," replied the youth, and immediately the counter was strewn with the delicate articles. After selecting a pair, she looked up very innecently and

"How high do they come, sir ?"

The clerk blushed, turned in fact all sorts of colors, but spoke not a word. She gave him a look of surprise, and repeated her question. Again the youth stammered, and said-"Really, Miss, I-that is to say, I think

-I could not be positive, but my impression is that they come just above the knee!"

#### The American Sharp Shooters.

Forsyth, so celebrated in the last war as the commander of a band of sharp-shooters, which harrassed the enemy so much, happened in a scouting party, to capture a Brit-ish officer. He brought him to his camp and treated him with every respect due to his rank. Happening to enter into conversation on the subject of sharp-shooters, the British officer observed that Col. Forsyth's men were a terror to the British camp that as far as they could see they could se-lect the officer from the private who, of course fell a sacrifice to their precise shoot-the the officer from the private who, of course fell a sacrifice to their precise shoot-that is to say: ing. Old Dr. Jacob Townsend THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla

Oid Dr. Townsend is now shout To years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA". Being paor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, prociaumed its wonderful.

been healed of sope diseases, and saved from death, proclaimed his wonderful.

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION; manufactured on the largest scale; and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and sower changes but for the better; because it is prepared on testific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Strasparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for see, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so relatils that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these velocitie principles, which fix off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the most till they get a dark reloved liquid, which is more fron, the coloring matter in the root than from anything else; they can then strais the metiod or vapid liquid, sweeten with sour molasses, and they call it "SARSAPARILLA EXTRACT or SYRUP" flut such is not prepared to the article known as the GENUING OLD DR JACOB TOWNSENDER

imipid or vapid liquid, sweeten with sour molasses, and there call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable of beccoming acid or fermentation is extracted and rejected, then every particle of medical virtue is secured in a pure- and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is much the mose powerful agent in the Cure of finant merable Discasses.

Hence the reason why we hear commendations on every side in its favor by men, women, and childron. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIFER-COMPLAINT, and in RHEUMATISM, SCROP, ULA, PILES, COSTIVENESS, all CUTANE, OUS ERUPTIONS, PIMPLES, BLOTCHES and all affections arising from
